## **ASSOCIATES**

With so much time in the industry, we have developed close tie-ups with several other companies/individuals who are not in web hosting but have their expertise in related fields and whose services are available to us at all times. These include Microsoft (India), Network Solutions, Enom Inc., Kandalaya, Intel, Icewarp/Merak ... and so on. Besides just business relations we have also earned good relations with dozens of senior people in various IT related fields.

Our expertise is Linux server administration and security is well known in the industry. Our main systems administrator is one of the top people in the world and interviews from him can often be seen on channels like BBC and his articles found in major IT magazines. We also have our own web-based control panel software called VishwaKarma being distributed free, as our contribution to the Open Source world. It is now running on 100s of web servers around the globe.

We regularly receive beta versions of software from Microsoft and other companies for feedback and bug reporting and suggestions. We were one of the 1st companies to have Windows 2003 server on our test machines, 5 months before the official launch.
